## Import/Export

United Kingdom to Afghanistan

Country or Territory Regulations Topics:

Import Documentation

### Miscellaneous

For changes made for Export Shipments from United Kingdom to the destination country or territory, please refer to Brokerage Services and Charges-Export Shipments with United Kingdom as the destination.

Driving Licenses

Valid Driving Licenses can be shipped as documents. The description must clearly state 'driving license'. Shipping driving licenses require the approval of the UK customs authorities. A delay of minimum one day has to be calculated.

Please check the import related information if driving licenses are allowed for importation.

Mobile phones to all destinations from United Kingdom can be delayed on export due to security checks from government bodies.

### MSDS-NON DG

Goods under IATA Special Provisions A67 require a MSDS (Material Safety Data Sheet).

It is not required for all, however shipments can be held by local authority in United Arab Emirates after screening due to lack of MSDS (Material Safety Data Sheet) or NON DG (Dangerous Goods) declaration letter from the shipper resulting to misconnections and impacting end-to-end service. It would be advisable for all shipments originating, transiting and terminating in UAE to have MSDS or NON DG declaration from shipper enclosed in the shipment and copies to be uploaded in IDIS.

### SED-(New Electronic Export System)

Export procedure ex United Kingdom

A formal electronic export declaration must be sent to customs authorities by the exporter or their representative. Customs authorities grant the release for export and issue an Export Accompanying Document (EAD) with a unique Movement Reference Number (MRN). UPS operated simplified informal declarations

An informal declaration is possible for shipments up to a national threshold. The informal declaration is based on the invoice value and is restricted to shipments not subject to prohibitions and restrictions (for example, embargo regulations) or special export procedures (for example, temporary export). The informal clearance will be done by UPS at the point of exit.

### National Requirements

Shipments up to a value of 873.00 GBP can be declared informally on the basis of the invoice.

The EORI (European Union Registration and Identification) number needs to be included with the invoice for any shipment with value exceeding 873.00 GBP. The EORI number can be obtained by the shipper using website link: [www.gov.uk/EORI](http://www.gov.uk/EORI)

UPS service

UPS offers the service to prepare export declarations on behalf of the exporter without additional fees.

### Export Documentation

#### Passports

Valid passports can be shipped as documents. The description must clearly state 'passport'. Shipping passports require the approval of the UK customs authorities. A delay of minimum one day has to be calculated.

Please check the import related information if passports are allowed for importation.

### Clearance Information

### Billing Options

#### Shipping Charges

- Shipping charges can be billed to the shipper, receiver or a third party.
- When billing the receiver, either the shipper or receiver's account number is required.
- When billing to a third party, the third party's name, country or territory and account number are required.

#### Duties and Taxes

- Duties and taxes can be billed to the shipper, receiver or a third party.
- When billing a third party, the third party's name, country or territory and account number are required.
- If the duties and taxes are billed to an account outside of the destination country or territory, a 'Duty and Tax Forwarding' surcharge will be applied.

#### Third-Party Billing

- Please note the following third party billing exceptions:  
◦ Shipments to and from the same country or territory (domestic shipments) cannot be billed to third party payors in other countries or territories. For example, shipments from Mexico to Mexico or Canada to Canada cannot be billed to a third party payor in the U.S. This rule does not apply to UPS domestic services in European Union countries or territories as well as to UPS domestic services in the United Kingdom. For example, shipments from Germany to Germany can be billed to a third party payor in the U.S. (as long as the payor is a business and has a VAT or EIN ID on file with UPS).

#### Payment Methods

- When paying by credit card, check, or cash, only the shipper can be billed the shipping charges.
